BROADCOM®

Legal Disclaimer

 On November 22, 2023, Broadcom Inc. completed its acquisition of VMware, Inc., and on December 7, 2023, Broadcom CEO Hock Tan announced his intention to divest the End-User Computing Division (EUC).

 Global investment firm KKR announced on February 26, 2024, that it has signed a definitive agreement with Broadcom to acquire the EUC Division.

 Learn more about the pending acquisition.

EUC as an Independent Business

Dedicated EUC Team

Strong growth and profitability

High customer renewal rate

Dedicated EUC Team Across Functions

One EUC team across R&D, Sales, Marketing, Customer Success, PSO, Partner, Operations, Support, HR, IT Legal, and Finance with a shared purpose. EUC tenured leadership team.

Healthy Business Fundamentals

High revenue subscription business with consistent growth, healthy profit margins, and an opportunity for increasing ROI for customers

Large Customer Base

Differentiated solutions. Large global enterprises across all verticals.

BROADCOM®

Modern SaaS Architecture for Workspace ONE
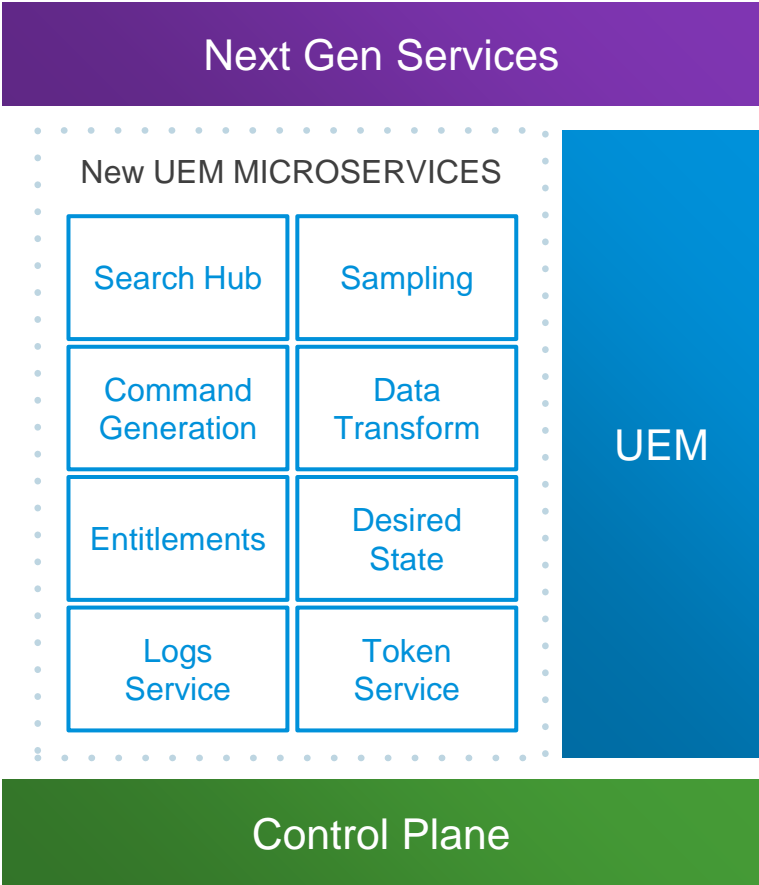

We're refactoring our architecture…

- Previous approach had constraints around flexibility, serviceability, and scale
- New self-contained, modular, and loosely coupled microservices

## …Bringing better quality and faster feature delivery

- Improved serviceability, robustness, performance, and scale
- Enables features such as desired state management, predictive analytics, and more, coming soon

Architecture rollout in progress

- UAT and select SaaS environments now in Beta
- Complete GA rollout for SaaS environments throughout the year

Next Gen Services

New UEM MICROSERVICES

Search Hub	Sampling
Command Generation	Data Transform
Entitlements	Desired State
Logs Service	Token Service
